

WORKING AT NIGHT

is a great strain on the eyes. Lessen it as much as possible by having the best light, which is the ELECTRIC. No flickering, no heat, smell or smoke. You can have it just where you want it, to throw the best light on your work with no glare in your eyes. Have a talk with us about its cost as compared with less modern illuminants.

TO AILING WOMEN.

A Little Sound Advice Will Help
Many a Sufferer in Paris.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Paris woman tell you about Doan's Kidney Pills.

Mrs. J. W. Huffman, 115 N. Main street, Paris, Ky., says: "I gladly corroborate the statement I gave in 1905 in which I said that I had used Doan's Kidney Pills, procured at Wilson's drug store, and had received satisfactory results. I suffered from piercing pains across my back and through my kidneys and at times I was so miserable that I was unable to attend to my work. Headaches and dizzy spells also added to my discomfort. Doan's Kidney Pills removed all these troubles and I have never had a return attack."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Calling in Funds.

Secretary of the Treasury MacVeagh made a call on National bank depositaries for a return to the Treasury of Government funds approximating \$25,000.

To Mammoth Cave.

Bourbon county excursion to Mammoth Cave from all sections July 21 on regular morning trains. A three-days' trip to the world's greatest wonder for \$12.65. Tickets include the railroad fare, board at hotel and the several routes through the Cave, also one night for a dance or social at hotel. Return limit ten days. See L. and N. Agent.

Bandits Surrounded.

The bandits who held up the Canadian Pacific railroad express train on the night of June 21-22 are surrounded by the mounted police in the Rocky Mountains, and one has been killed.

The Burley Crop.

The pledge upon which the pool of the Burley Tobacco Society will have its efforts to pool the crop of 1909 is in the hands of a Cincinnati printer and will probably be given to the public in a few days.

Many of the most salient points were mentioned in a recent article in this paper. Perhaps the most important change in the pledge for the farmer is that clause retaining 10 per cent. of the proceeds for prize, storage and insurance. As the Society proposes to do this at cost it will eventually mean a great saving to the grower. This clause means that each grower who pools will have stock in the corporation that perform these functions to the extent of 10 per cent. of the pool.

The Equity warehouses which were formed during the last pool all paid good dividends and some of them paid their whole cost in one season leaving the property as clear profit. It is expected that this stock will pay a dividend of six per cent. and at the same time make a surplus that may be used for other purposes and possibly eventually for establishing factories if it should be considered necessary.

From this fund will also be established warehouses where its own pricing can be done and where the tobacco may be stored thus saving the charges made by the Louisville and Cincinnati warehouses for storage.

It is said that the pledge will not mention any specific portion of the crop to be pooled before the pledge is binding, but there is a feeling that it will be necessary to secure as large or larger portion of the whole crop than was the case in the last pool.

The pledges will be bound in books with stub attached. The pledge is a contract between the grower and the society and the stub contains all the conditions of the contract. The pledges will be retained in the counties where they are made and the stub sent to headquarters here. This will give a more perfect check upon the contracts and will reduce the danger of the sale of pooled tobacco to a minimum.

The campaign in regard to the pool will be quick and decisive. The campaign of information and education which was necessary in the former campaign is no longer needed. The pool is an assured success and the matter will be placed before the growers and their decision will settle the matter of a pool for once and for all time.

Piles! Piles! Piles!

Williams' Indian Pile Ointment will cure Blind, Bleeding and Itching Piles. It absorbs the humors, allays itching at once, acts as a poultice, gives instant relief. Williams' Indian Pile Ointment is prepared for Piles and itching of the private parts. Sold by druggists, mail 50c and \$1.00. Williams' Mfg. Co., Cleveland, O. Sold by L. Oberdorfer.

In State of Panic.

The Missouri River has risen three inches within twenty-four hours at St. Joseph, Mo., and is two feet above the danger line. The damage to crops is increasing and farmers in the bottoms are in a state of panic. A number of buildings were seen floating down Wednesday.

To Exclude Negroes.

The preparation of a bill to exclude negroes from employ as firemen and trainmen in Georgia was begun yesterday by a committee representing the firemen and trainmen of the Georgia railroad. The bill will be presented to the Legislature now in session.

STOCK, CROP AND FARM NOTES.

—When you can dig 44 potatoes from one hill what's the use monkeying with tobacco? That is what a farmer near Winchester did Saturday.

—When we remember that it requires 90,000 cases, or 2,700,000 dozen, eggs a week to supply the great city of New York, there need be no worry about overdoing the chicken industry. While New York is the largest city in this country, there are many other large cities, as well as hundreds of smaller cities to supply. Eggs never sell below 20 cents a dozen in New York.

—"Keep the farm crops on the farm and ship the meat and the butter and the milk and the cheese," is the common sense advice of Secretary Wilson. This insures soil fertility. Every ton of corn shipped to market loses the farm 33 pounds of nitrogen 12 pounds of phosphorus acid and seven pounds of potash. Figure this out on the basis of the printed analysis on the fertilizer bags and see how much the farm loses with each corn sale. If fed, 80 to 90 per cent., of these constituents go into manure. By the way, Uncle Jim says to be sure and haul out and spread your manure as fast as made.

—The Winchester Democrat says: "Possibly the highest price paid for many years for blue grass seed was paid by Mr. J. S. Wilson, a Paris dealer, who paid 45 cents per bushel to a number of growers of this county, who had formed a pool. The following is a list of those who sold to Mr. Wilson and the number of bushels delivered by each:

J. Harvey Hunt, 10,000 bushels; Holloway Bros., 10,300 bushels; Jos. Brown, 10,300; Ben D. Goff, 10,000 bushels; N. P. Vanmeter, 30,000 bushels; Tom Brock, 3,000 bushels; Harry Crawford, 5,000 bushels; J. Scott Renick, 3,000 bushels."

—Watermelon and cantaloupe season is now in full swing in Texas. It is estimated that about 3,000 carloads of these delicious fruits will be shipped from the San Antonio country this season. Last year between 2,000 and 2,500 carloads were shipped. The Texas Rockford cantaloupe mature about six weeks earlier than those grown in the Imperial Valley of California and thus has the advantage of the early markets. The watermelon industry of this state, next to the onion growing industry, is the greatest truck product. There are thousands of acres in watermelons throughout the San Antonio section. Growers figure on an average of from \$100 to \$125 an acre profit.

Brandenburg Acquitted.

Broughton Brandenburg was acquitted at New York Wednesday on the charge of grand larceny, growing out of the sale to the New York Times of an article purporting to have been signed by Grover Cleveland. He was at once arrested on a charge of kidnapping his stepson, James Shepard Cabanne, in St. Louis.

Tax on Tea Defeated.

After defeating Senator Tillman's amendment for a tax of ten cents a pound on tea by a vote of 18 to 55, thus concluding the schedules of the tariff bill, the Senate took up the income and corporation tax questions. Senator Aldrich said he would support the corporation tax amendment as a means of defeating the income tax, expressing the opinion that the tax would be repealed after two years or the rate materially lowered. The Democrats held that this position was a subterfuge on Mr. Aldrich's part to destroy the income tax.

Milk in Siberia.

The people in Siberia buy their milk frozen, and for convenience it is allowed to freeze about a stick, which forms a handle to carry it by. The milkman leaves one chunk or two, as the case may be, at the houses of his customers. The children in Irkutsk instead of crying for a drink of milk cry for a bite of milk. The people in winter time do not say "Be careful not to spill the milk," but "Be careful not to break the milk." Broken milk is better than spilled milk, though, because there is an opportunity to save the pieces. A quart of frozen milk on a stick is a very formidable weapon in the hand of an angry man or boy, as it is possible to knock a person down with it. Irkutsk people hang their milk on hooks instead of putting it in pans, though, of course, when warm spring weather comes pans or pails must be used, as the milk begins to melt.—Baker's Weekly.

A Wall Street Confession.

The broker street the most profitable end of the game. Perhaps you have never realized that most New York stock exchange houses with any sort of clientele maintain their offices on what they make on interest charges, which every monthly statement shows, and which not one of a hundred speculators can verify. The commission and interest charges that go to the brokerage firm make the percentage an almost impossible one to overcome. This percentage is far bigger than in roulette. Do you think you can win in the long run playing roulette? If you think you can, then go ahead and speculate. If in doubt, then let me tell you that in almost three years I had over 200 accounts, and not only have I never seen anybody make any money to keep, but I have seen many a fortune wiped out.—Everybody's.

England Losing Population.

The increasing exodus of emigrants is alarming England. Mr. Ellis Barker in the Nineteenth Century points out that the chief cause of emigration is unemployment and ill-paid employment. Lately emigration has been increasing at an alarming rate. The net total, 71,188 in 1900, rose to 133,355 in 1905 and 237,204 in 1907. "Nations which choose to rely for their food on foreign countries, and which cannot export a sufficient quantity of manufactures to pay for them, have to export men. Men are the largest of our invisible exports."

Legislation Aimed at Inebriates.
Men "visibly intoxicated" and conscious of a lingering thirst will ask for another drink at their peril if the Pennsylvania legislature passes a bill introduced by Representative M. Watson, of Indiana county. Mr. Watson would make the price of that particular drink, or even the request thereof, \$5 to \$20. It is unlawful now for a saloonkeeper to sell to a man "visibly intoxicated," or to an habitual drunkard or a minor, but the present law imposes all responsibility upon the saloonkeeper to determine the man's condition. Representative Watson would shift some of the responsibility on the man with the thirst; also upon the habitual drunkard and the minor who would ask the saloonkeeper to violate the law. His bill proposes a fine of from \$5 to \$20 for each attempt to get a drink under the circumstances.

Fear of Premature Burial.

The fear of premature burial, which prompted the late Lord Burton to direct by his will that his heart should be removed from his body, has caused many well-known men and women to order a surgical operation to be performed upon their bodies. Harriet Martineau left her doctor £10 to amputate her head, and Lady Burton directed that her heart should be pierced with a needle. The late Edmund Yates left instructions that his jugular vein should be severed, with a provision that a fee of 20 guineas should be paid for the purpose. Literary persons appear to have been particularly afraid of premature burial. Bishop Berkeley, Lord Lytton, Hans Andersen and Wilkie Collins all took measures to protect themselves from it.

College Men in Public Offices.

New England, with one-fifty-fourth of our continental area and about one-fourteenth of the total population of the states and territories, has schooled the president, four-ninths of his cabinet and four of the newly-appointed first assistants. It may be added that Henry Clay Ide, the new ambassador to Spain, is a Dartmouth man; and, forecasting the honor-roll which is to be headed by ex-President Eliot of Harvard, it seems safe to assume that New England colleges will figure as largely and brilliantly in the diplomatic as in the executive appointments. As for the judiciary, in which changes are so few that it seems ungracious to preview any, one may surely point with pride to the fact that our colleges provided four-ninths of the present supreme court of the United States—the chief justice being a graduate of Bowdoin and Yale being represented by one and Harvard by two associate justices.

Parts and Signs of Goodness.

If a man be gracious and courteous to strangers it shows he is a citizen of the world and that his heart is no island cut off from other lands, but a continent that joins them. If he be compassionate toward the afflictions of others it shows that his heart is like a noble tree that is wounded itself when it gives the balm. If he easily pardons and remits offenses it shows that his mind is planted above injuries, so that he cannot be shot. If he be thankful for small benefits it shows that he weighs men's minds and not their trash. But, above all, if he have St. Paul's perfection, that he could wish to be an anathema from Christ for the salvation of his brethren, it shows much of a divine nature and a kind of conformity with Christ himself.—Bacon.

Preached with a Broken Leg.

During the recent severe weather in England Rev. Thomas McClelland, one of the organizing secretaries of the Church Missionary society, fell at Guildford while descending a hill on his way to preach at St. Saviour's church. He managed to crawl to the church, though considerably shaken, and rested in the vestry until the time came to preach, when he succeeded in reaching the pulpit, and gave an able and impressive sermon. When the service was over Mr. McClelland collapsed, and was carried to the house of friends. It was found that his leg was broken just above the ankle. After having the limb set, he rested a few days, and was then conveyed to his home.

Holland's Way.

In Holland there are few able-bodied paupers. There is a tract of public land containing 5,000 acres, which is divided into six model farms, and to one of these is sent the poor person applying for public relief. If he voluntarily serves until he learns agriculture he is allowed to rent a small farm for himself and be what is called a free farmer. Every pauper who is thus reclaimed to honest regular industry is so much gain to the state. There is also a forced labor colony, where beggars and vagrants are sent and made to do farm and other work, whether they like it or not.

Electric Signs for "L" Reads.

Electric signs are to be extensively used on the stations of the loop of the Chicago elevated railways. According to the plans, a large sign reading, "Elevated Stations," will be installed on the elevated structure at the principal street corners. Numerous smaller signs reading, "To All Trains," will be installed at the entrance to the elevated stations, and at all other points where signs are desired those of the electric type will be made use of. After an extensive investigation into the matter it has been decided by the officials of this company that the electric sign is the best for all purposes.
